## Our Purpose

---

We at FI 89, believe that a persons callings, dreams, and visions for their life didn't come them their life experiences, but at the very moment of conception. While still in the mothers wombs with the fusing of the first two cells started our journey of life.

That is where the building blocks or foundations of one's dreams, and callings took flight. Here at FI 89 we believe that an individuals dream of walking into their future dream home, passions, goals, visions, and even business all begin with the foundation. Without their being one established there can be no completion of the latter. Life is just a staircase of steps one has to climb up to obtain their dreams and passions. Along the way we have been molded by people, happy and sad times, which were all the ingredients that helped us become the person we are today. So, here at FI 89 we take those your dreams and life ingredients to help you build a foundation that will last for generations to come. We strive to remove the uncertainty of life and inspire a world to dare and dream again!

## About Founder

---

I was born and raised in Alabama, where my parents taught me the value of hard work and helping others. Just like any other kid I had big goals and dreams of who I wanted to be in life.

Somehow as life went on and I got older I found myself putting those very dreams and goals up on the bookshelf where they started collecting dust over the years. After my time in the military and working for different companies I decided that I would no longer put my dreams on the back burner. It was time for a change and I started pursuing them without fear.

That's what inspired me to created this company a dream of something greater than myself. Helping others who are in the same place I found myself in years ago. Now my new goal is to help others make their dreams a reality!
